Biggest Security risk in the near future?

3 Nokia

NOKIA

Regulators and security

- Regulators getting alarming messages from security
 - Security is already serious business
- Challenge for Industry to convince decision makers progress done
- Propriety systems can't be done!
- Global systems
- Local legislation can become a challenge

Regulation diversities globally

Governmental view for security requirements divided to two pools

5 Nokia

NOKIA

Challenges with Security Technologies

- Technologies are not bad and should not be banned
- Generating the Legislation
- De Facto standards
- Changing existing legacy

Optimization with Security

- Starting with Requirements
- Balancing with Right Level of Investment
- Alternatives
- Usability

Unlashing use of security

- Rules and Regulation
- Public Image
- Responsibility of information protection
- Fall Back
- Evolution

Thank you !
